Initial Disclosure

Validate, generate, and send initial disclosure packages

MORTGAGE AUTOMATION UNLEASED

It's just an unfortunate coincidence that generating and delivering initial disclosures is both required to occur in a short 3-day window AND is an annoying long, tedious process. Never miss another 3-day window by letting Brimma's bot do all of the tedious work.

What makes Brimma BOTs Better?

At Brimma, we do more than create BOTs to automate your work. We work hard to make sure you know what you're getting and satisfied with the results. That's why Brimma backs-up its BOTs with a **"if you don't like it, you don't pay"** promise. And we provide a minimum of 30-days of "burn in" support for all of our BOTs.

Founded in 2016, by a former executive of Ellie Mae, IBM, and Palisades Technology Partners, Brimma was created to deliver innovative software solutions to mortgage lenders who need holistic solutions to the technology problems that have plagued the industry for decades. We know the only thing you hate more than your LOS is the idea of implementing a new LOS. We have felt your pain...and it is what drives us to build solutions that recognize that technology for mortgage lenders is unique.
