

LOCK DESK AUTOMATION

Selectively auto-approve lock requests

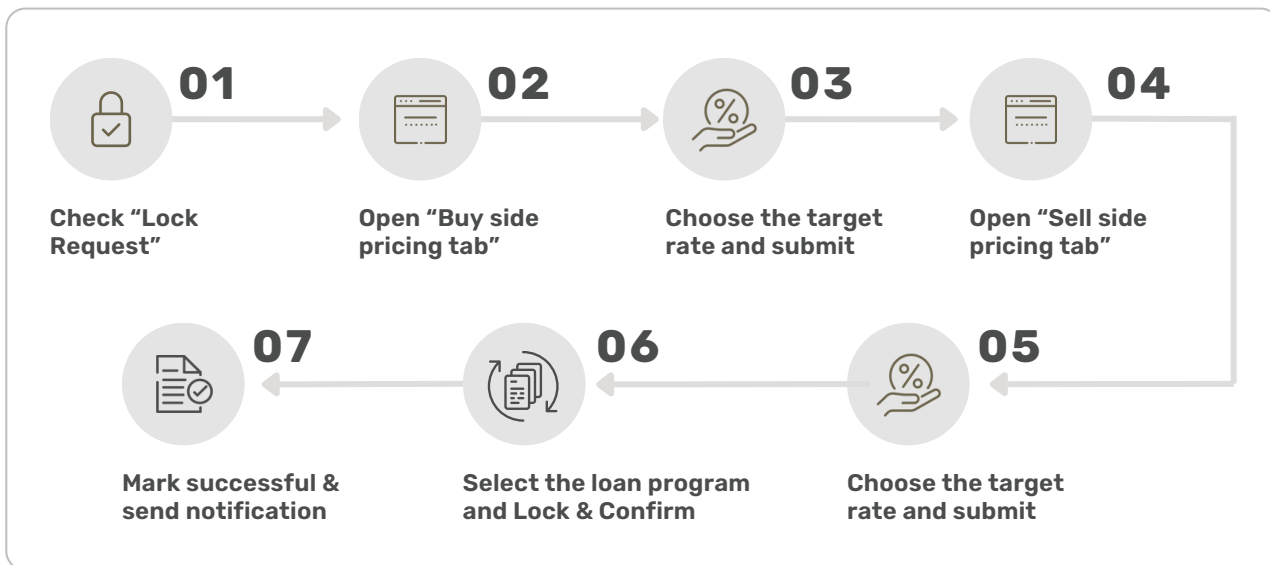

Despite what your LOS and Pricing Engine vendors tell you, lock approvals do not have to be an “all or nothing” affair.

With Brimma’s bot, you can configure the scenarios to auto-approve and they will auto-magically get approved without Lock Desk intervention.

What makes Brimma BOTs Better?

At Brimma, we do more than create BOTs to automate your work. We work hard to make sure you know what you're getting and satisfied with the results. That's why Brimma backs-up its BOTs with a **"if you don't like it, you don't pay"** promise. And we provide a minimum of 30-days of "burn in" support for all of our BOTs.

Founded in 2016, by a former executive of Ellie Mae, IBM, and Palisades Technology Partners, Brimma was created to deliver innovative software solutions to mortgage lenders who need holistic solutions to the technology problems that have plagued the industry for decades. We know the only thing you hate more than your LOS is the idea of implementing a new LOS. We have felt your pain...and it is what drives us to build solutions that recognize that technology for mortgage lenders is unique.
